

Please leave Indiana's No-Call list alone. I don't like people calling me all hours of the day for things I don't want. I don't like being bothered at dinner time or at 8:00 A.M. I am enjoying a quiet morning and afternoon in my house and want to continue to do so. This law is NOT unconstitutional. Taking it away will be. I also have a right, a right to say "NO" one time. These people are rude and don't know what that word means. Please leave it alone.
